Art Unit: 1614

Claims 1-5 and 17-30 are presented for examination.

The amendments and remarks filed on October 8, 2004 has been received and entered.

Claims 1-5 and 17-30 are again rejected under 35 U.S.C. 112 first paragraph for the reasons set forth on pages 2-5 of the office action of July 19, 2004.

Applicant's arguments and remarks have been carefully considered, but are not deemed to be persuasive. The newly presented amendments are drawn to the broad phrase of "amyloidosis associated with Alzheimer disease and islet amyloid fibrils". Such phrase is directed to all amyloid conditions associated with Alzheimer disease and all amyloid conditions associated with islet amyloid fibrils. The instant specification provides no guidance for a person skilled in the art to use the invention commensurate in scope with claims. Thus, for the above reasons and based on the Wands analysis of the office action of July 19, 2005 the rejection of claims 1-5 and 17-30 sustains.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
